TO READERS

As stated, the contents of this bit of factual history are, to the best of our ability, the exact wording of items as published by the editor of those far away days. For brevity's sake, and occasionally to make a brief comment, a distinction is made by the use of double brackets, such as:

Some time ago we referred to the acts of the Order known as "The Moose". Today we chronicle something of the real work done by them. Mr. J. Here is just where the young men of this Order figured every night for the past three months, a couple of them watched alternately, also provided for the expenses which would not be small as a comfortable room in the Revere House was occupied. Mr. and Mrs. Murdoch were exceedingly kind in their attention to the unfortunate young man.

MUCH AFFLICTED: Naturally an investigation was requested by Mr. A. W. Rear into the cause of a sore affliction that has befallen his household. In Lakeland this happy family resided, and one day the eldest son, Clinton, went with a threshing gang who were operating on the Portage Plains, and while on their circuit it is supposed they contracted typhoid, which seems almost certain as seven of the Kitson gang were taken down. — Clinton, the first member of the family, was quickly followed by his mother who contracted the disease while attending her son. With the wife and mother down it was thought best to have her placed in the Home for the Sick in Gladstone, and so the home was motherless during that time. Then, Ethel, the 18-year old dau. was smitten, and she too was removed there, and after nearly a month in this place the young life went out. — Mrs. McMillan, the grandmother, had arrived from N. Dakota to assist the bereaved family, and while going about the yard, fell and received an injury to her hip. With this extra misfortune the second son, Elwood, and the daughter Edna, besides the grandmother, were taken down. A week after Clinton's removal to the hospital in Portage, having taken a relapse, these three followed. The present reports are that the three young people are doing as well as can be expected, but Mrs. McMillan, on account of her advanced years, is in a very precarious condition. — Mr. Rear has the sympathy of the neighborhood, and the whole community is interested in this unusual case.

OGILVIE: A pleasant evening was spent in Mr. Beck's new house last Tues. — John Jamieson returned from Dauphin Sat. last accompanied by his sister Grace, who has been there for the last six weeks. Good thing that.

Jas. White has accepted a position with Broadfoot Bros.

Mr. Singleton left Tues. for Omaha, Neb., Idaho, Des Moines and other parts south in connection with land negotiations.

At the Wpg. 'Spiel last week a very exciting contest was witnessed between Matheson's rink of Russell, and the "Moose" of Gladstone for the Empire trophy, the former winning. The "Moose"

however, made a good showing at the 'Spiel and are to be congratulated on securing the second prize which is four beautiful lockets, valued at \$12. each. The boys returned on Thursday last and on their arrival the town band was at the station to welcome them back. ((This latter exuberance may not be all due to town pride in their conquering heroes, as many of the bandsmen were members of the "Moose" and of course couldn't turn down an opportunity for a little extra horse-play. It must have been a great bunch of gay young bachelors!)).

BAND "BENEFIT" CARNIVAL

It was a hummer! Yes, indeed it was a great success! Many reasons might be attributed why it was so, and we might mention a few as we see them. The popularity of the town band is growing, and as any popular movement takes the crowd along so it was certainly demonstrated on Tues. night at the great Band Benefit Carnival. There are other reasons for success: skaters know that J. T. Wilson & Son have never once given them poor ice, never during the season has there been a hole found in the ice; again the selections promised by the band were away ahead of any past efforts. The numbers were all well chosen. The committee had judiciously advertised the affair. With an overwhelming \$75.00 prize list, donated by the merchants; the columns of the Age were used; large announcements were distributed. Nothing was done by halves, and success followed.

As late as 7 o'clock at many a house in town the dishes were left on the table, tea having been shoved down rather than eaten. Expectancy ran high, and a delightful excitement permeated many a household - tots & grown-ups too. All to receive a prize? No. But perhaps they thought they might.

Those who did receive prizes, certainly deserved them though the old difficulty of selecting existed, and it was a mere toss-up as to who should receive it.

After an hour of witnessing the pranks of those comically dressed, the grace of the many sporting costumes, and the truly splendid caricatures so well carried out, the committee from the band ranks. R. Kemp, T. Gaunt and E. J. Cresswell stepped on the ice and the judging was done without delay. This was a pleasant surprise for the spectators, everything being done with almost military precision. This difficult task was performed by having each set pass before the judges who awarded the prizes. The races followed hot and furious. They were hotly contested, which kept the crowd of spectators well pleased.

The flood-gate was opened and the word passed "Everybody could skate". The mixing of the multitude for once made Gladstone look as if she were a cosmopolitan city.

The prize-winners are as follows:

Best Dressed Lady, 1st, Miss McClory, 2nd, Mrs. Egan; Best Dressed Gentleman, 1st, A. H. Collins, 2nd, J. Milne; Best Dressed Girl, 15, (prizes not yet claimed); Best Dressed Boy, 15 (prizes not yet claimed); Best Dressed Children, 1st, P. Armstrong, 2nd, Annie Eccles; Comic, adult, 1st, H. Boyd, 2nd, H. ((Two runaways in town: Sat. last a furious runaway happened Mr. Gilman's team, which became frightened at the train, rushed up the crowded streets, landing against a lamp post. At one time it looked like a most serious accident could not be averted. No serious damage done. — Mr. Jos. Grose drove into town on Monday last, hitched his team to a post near the Revere House, and while delivering a parcel, the horses became frightened and broke loose from the buggy causing a most complete ruin to the rig, and wrenching the gearing, in fact causing a general delapidation by coming in contact with the post. The animals were captured near the railroad track, having fallen a nasty cut to one of them may disable the beast)).

We are glad to announce that the serious accident which befell our townsman, Mr. Thomas Madill, has not proven so much as at first reported. Mr. Madill, while alighting from a load of hay, the pole to which the rope was fastened, broke, and threw him backwards, falling hard on the back of his head. Stunned and dazed he was conveyed to his home where for three days he suffered and by prompt treatment averted brain fever. We are pleased to see Mr. Madill up and around again.

According to current reports the "Moose" will have considerable to do with the decision of the Local Option by-law vote.

Mr. C. Hayes left this week for Lloydminster with a carload of cattle. After having lived here for 21 years he is seeking a new home in the west.

((An "Observer" writes to the editor a letter almost two cols. long in which he gives his views as to why Gladstone isn't keeping up with other towns in these

boom times. He gives two reasons, and starts off: "In the first place we had all our crops destroyed by grasshoppers in '74 & '75; then came a succession of 4 or 5 rainy yrs. in which nearly half of our crops were destroyed by water, the roads were almost impassable, the little grain we had to market had to be hauled to Portage. We had to get our gristing done there, the Gladstone mill being burned. Most of our horses died. Immigration stopped. A number of our people moved west, and only those remained who had faith in the future of the place and were determined to overcome all difficulty or die in the attempt. Finally the rains stopped, the land dried up, and what we considered a curse is now proving a blessing. The rich mould from the west was carried over the lands by the floods. Luxuriant grasses grew up and turned into vegetable mould leaving a greater depth of black loam than is found anywhere west of the Red River. We have half-a-dozen streams of pure spring water coming out of Riding Mtns; good well water can be obtained at 12-15 ft."

((Then he elaborates on the well-settled municipality and the very high hopes of the future to have three rail lines, two thro' town, one of which will undoubtedly lead to Hudson's Bay which will take all of the grain that way. For his second reason he chides the editor for filling the paper with reports of "parties visiting here and there, dances and dog-fights instead of something original, something spicy, something about the past or future, something that would be food for thought, something that would educate people)): "Something that would give your paper ten times the circulation. And all this can be accomplished by putting your thoughts on paper, and giving them fresh and untarnished from the fountain head to your readers". He advises further, "Get some men as Emerson, Cory, Peter Moodie, Budge and Peter St. Clair McGregor to contribute weekly articles to your paper and give us a long editorial of your own."

((The "Observer" finishes off stating)): "Before I finish this scribble I would like to correct an article I saw in a Wpg. paper last summer giving the names of pioneer settlers of this part, but to my surprise half of those entitled to the honor were not mentioned, while others who have no claim to it were made to appear as the founders of the place. Honor to whom it is due: Ferguson; Cory; Granthams; Mustard; Broadfoot; W. Ross; McConnells; Whaley; Switzer (one of Riel's prisoners); McLeods; D. McCaskill; Kerrs; McLeans; Carmichael; Davidsons; McDonald; Morton; Bennett; McGregor; and J. J. Stewart)).

On Good Friday morning, during the high winds that prevailed, the furnace pipes and Chimney of the shop and residence of Jos. Hack, barber, caught fire; and at one time matters looked rather dangerous as it was hard to locate the fire. However it was soon extinguished, and after a slight scare things assumed their even tenor. The chemical fire extinguishers that were hurried to the scene of action shows the earnestness of the citizens of Gladstone at such times. Mr. Hack desires to thank those who so promptly came to his aid.

((Dr. Bailey, of Gladstone, married Florence Passmore, of Wpg., in the city Tuesday. They are at present residing in the Alhambra)).

THURS., APRIL 26, 1906 —

Last Sat. a team of Geo. Ball's ran away causing excitement as they took to the sidewalk and almost ran down Mrs. Reader who while wheeling her baby in its carriage, happened in the way of the madly-galloping animals. In the nick of time they escaped, the lady drawing the carriage almost from under the horses' feet. As they proceeded on across the sidewalk to the river, turning east, the wagon upset, threw one of the horses, otherwise they escaped unhurt.

Mr. Hez. Elliott says the property he has been offering for sale is his deeded property, notwithstanding rumors to the contrary.

Mr. Cresswell, who has finished the contract of remodelling the interior, placing the office furniture and putting in the water system in the Merchants' bank building, has done a very creditable job. There has been quite a number found employment during the slack time. The brickwork and plastering was executed by Mr. Reader, our town bricklayer, who kept employed a number of men nearly all winter throughout the town, which has been quite a benefit.

E. Crouter received today one of the largest cars of hardware ever received in Gladstone. It

consists of all kinds of shelf and heavy goods from Montreal.

((Gladstonians' escape in San Francisco 'earthquake')): Doctor Armstrong received word from Dr. Shoultz, stating he was at the home of his parents, Lompoc, when the earthquake occurred: all the chimneys of the place fell, yet no deaths occurred. — Mr. Arthur Lazier, formerly with Galloway Bros., telegraphed to allay fears of friends here, stating that in Gonzales no damage was done by the earthquake. GALLOWAY'S BIG CONTRACT

Some weeks ago we referred to the various contracts which had been secured by Messrs. Galloway Bros., and how this is gratifying to the people of Gladstone and vicinity, that there is so strong a business house which can handle the vast undertakings. Vast in the extent of ground covered, and in the multitude of men that will be required.

Starting from Portage, the McDonald, McMillan Co. contract from Portage to Touchwood Hills followed by the section granted to the Canadian White Co. from Touchwood Hills to Saskatoon; then the Foley Bros. Larson Co. from Saskatoon to Edmonton; all of which is now underway on the G.T.P. line. A further line is the contract of the C.P.R. which J. D. McArthur has from Saskatoon to Battle River; also the McKenzie Mann & Co. have given this firm the supply contract on all work they will construct on their main line and branch line building this year.

Galloway Bros. has an outfit of 50 horses and nearly as many men on the ground. Mr. James Mowat is superintending the work on the G.T.P. to Saskatoon. A. W. White from Saskatoon west and also the C.P.R. line. Wm. Galloway will superintend the C.N.R. work.

The ground will be covered on all contracts within a week. Quite a few outfits have gone out already. It is estimated there

will be 10,000 men on these various railway contracts and the beef will be all supplied by the Messrs. Galloway Bros.

We are a farming community. Produce, vegetables and roots of all kinds, besides everything else raised on the farm, are needed for this multitude of men. This very fact should bring to our town and into our midst, numbers of people who will be attracted by the business energy displayed. Will we take the attitude of general commendation of the success of this firm and benefit mutually in the success, or will we grouse?

Gladstone needs an earthquake to cover up a lot of the dead. Perhaps an upheaval in her business codes. Make the standard high! No do you'll be done. That's the very thing that will divert trade from coming our way.

LADY BANQUETERS

The young ladies of the G.B.P. C. met at the home of Mrs. Hamilton Findlay on Monday evening to tender Miss Sophie Cory one of their members, a banquet before leaving for her home in the west.

You recall an account of a first class entertainment having been put on not very long ago, part of the proceeds being donated to the J. Munro fund. This is the same "bunch" and their originality and activity in making the most out of everything is admired by those looking on. Well, here they are again - a banquet this time - and a right down original one.

The menu cards were decorated with indirect allusions to the various recipients. Such as: "Spikes", "Razors", "Hylanders", "Rectangles", "Bottles of Port—r", "Minerva."

Edith Minaker presided. The toast list was as follows:

King, resp. by .. M. Williams
Our Guest Sophie Cory
G.M.A.C. W. Bickle

B.B.C. Nellie Wilson
Gentlemen .. Mary McAlpine
New Member .. May Dotten

Hostess Clara Finlay

The G.M.A.C. made a presentation to Miss Cory of a "Gladstone Souvenir Spoon" bringing forth kindly references from the young lady.

Miss Cory's many friends were at the station Tuesday to wish her farewell.

NEW PREMISES OF THE MERCHANTS BANK

This institution is to be congratulated upon the handsome and up-to-date premises it has provided for the local staff and

customers, which is situated directly opposite their old premises on the corner of Morris Ave. & Dennis St.

The cage-work of the furnishings is constructed of steel oxidized brass, and appropriate mouldings; centre ledges supported on neatly shaped brackets are incorporated in the outfit.

The partition dividing the manager from the staff rooms is well set off in chip glass. On the glass in the door giving access to the general office from public space is inscribed in gilt letters "Private", as is also the room for the Manager, the word, "Manager" appearing in gilt letters. Other clear glass in the partition is double diamond.

The upper floor has been laid out in six spacious and well lighted rooms, to serve as a home for the manager and staff. The building is heated throughout with the most modern hot water heating system. The corner outside is well set off by a solid stone pillar which gives the building a distinctive and substantial appearance.

It is gratifying to note the confidence the bank has shown in the town of Gladstone and surrounding farming districts. This institution is the pioneer bank in this country, being the first to establish in the Province of Manitoba, and is one of the strongest in Canada.

The vault is built exactly after that of a city office bank building.

The present staff consists of: C. E. Barthe, Mgr.; J. L. Clarke accountant; C. R. Wickson, teller; C. G. Dunning, ledger; P. M. Kinney, junior. Most of the staff will occupy the suite of rooms above.

OGILVIE: Mr. Wyness and family, who have been store-keeping here for nearly a year, left a week ago last Monday for the west, where they will start farming. Mr. Parker, who has bought the store, has a much larger stock and people can save time and money by dealing at home.

GILLESPIE: Fire has already begun its destructive work in this vicinity. A stable owned by Lincoln Knudson and containing about 200 bus. of seed oats was burned to the ground on Tues. A small stack of oat sheaves was also destroyed.

Did you ever hear of "The Bug"? The worthy editors of that sheet are both in town now. Early settlers will remember the scathing, yet humorous, criticisms indulged in during those early days.

"Mexican Joe" who has been very low with inflammation of the lungs, brought on by exposure, having made his bed alongside a strawstack after a "spree" last week, is in a very precarious condition. The priest from Portage attended him yesterday. There is a touch of pathos in all this, showing how man will turn in the extreme hour.

Campbell of Mekiwin in the presence of a few intimate friends and relations. The happy couple will shortly leave for Tisdale. — Mr. Wm. Gill left for Humboldt taking a team of horses and a rig. He is greatly taken up with that part of the country. — The announcement of the marriage of Miss Nelly Keyes to the Rev. H. O. N. FIRE! FIRE! About 7:30 a.m. on Sat. the call of "Fire! Fire!" resounded through our streets. This time the Opera House had a close shave. A cigar or cigarette had been thrown in a box of saw-dust, which stood at the head of the stairway or entrance to the building. It must have smouldered all night, for when fire was discovered smoke was seen pouring through the openings. Immediately the door was opened flames burst forth. The extinguishers were on hand and again we escaped. Do you know we've fooled too long with this matter of fire protection. Any councillor who will bring forward this subject will be backed by the citizens.

BIG POINT: Mr. Olafson has organized a band to chase wolves out of Big Point. He gathered his army Thursday last, armed with guns, axes, fish spears and various other weapons, the company started to hunt them down. Mr. Benson kept in the rear and watched the provisions. THURS., MAY 17th, 1906 —

Birth: At Gladstone, May 16, the wife of John H. Wilson, a son.

Miss Margaret Galloway, having passed her final examinations in the Arts course at Manitoba university, has returned to her home. This adds another to the list of brilliant students who have made records in university work. Miss Galloway is to be congratulated on her success.

Mr. Oliver McDiarmid, B.A., is now a full-fledged doctor, having taken his M.D. at the recent examinations. We extend congratulations.

The time has arrived to have the town cleaned up. The citizens will do well to act on this suggestion and not wait to be called on by the constable to be reminded of their duty in this respect.

((Word has been received from Goshen, N.Y. of the engagement of Miss Georgie Johnston. Editor Minaker follows up with)): Miss Johnston at one time was employed in the post office; also the Gladstone Drug Co., from which place she resigned to be with her parents in New York. Miss Johnston was a very popular young lady when in Gladstone.

((One of the most important features, we think, in researching these old papers for items concerning "The Glory Years" is for the sidelights to history that it affords. This issue contains a brief sketch (copied from a Michigan paper) that sheds a little more light on one of the greatest characters in our town's history, that of Rev. Stalker. Here is the article in full)). "We copy from the Evening Journal, Calumet, Michigan, an extract from the story of the organization and development of the work of the first Presbyterian church of that place; its substantial growth; and the growth of the successful pastorate of the Rev. Daniel Stalker, of whom many of our readers will be pleased to hear. Next July Mr. Stalker will celebrate his 25th anniversary of his

pastorate, and the 14th anniversary of his work in Calumet.

Of the subject of this sketch a prominent business man, who is not a member of the Presbyterian Church said, "He is the most popular and most highly respected man in Calumet. People, irrespective of nationality, color or creed, love the man."

Rev. Daniel Stalker was born in Argyleshire, Scotland. When a child of five his parents came to America and located in Elgin County, Ont., then an almost unbroken forest. His father was a man of sterling character, for many years an honored elder in the Canadian Presbyterian church. He was educated in the Wardville High School, afterwards attended Toronto University then pursuing his theological course in Knox College, Toronto. Upon the completion of his course he offered himself to the Home Mission Board of the Presbyterian Church for work in the new west. He was given a charge in Gladstone, Man, then but a small village on the prairie in the great "Lone Land" opening up for settlement. His parish here covered 30 square miles. The surrounding country was at that time poorly supplied w. churches and missionaries. It was necessary to hold as many as four services on a sabbath driving sometimes 40 miles. Thus he took a very important part in laying the foundation of a church in that new land. He remained there for eleven years.

((Perhaps it would be advisable at this time to give space to Rev. Stalker's all-too-brief account of his sojourn in Gladstone as it appears in the book, "Presbyterian Pioneer Missionaries" published in 1924)).

"With regard to your request for facts regarding the early missionaries of Manitoba, I can give you the names of many of them, but not the dates of arrival or leaving. To get these you will require to communicate with the individual missionaries if they are living unless you can get the dates from the records of the various Presbyteries.

"I arrived in Wpg. about June 10th, 1881, the time of the meeting of the General Assembly in Kingston. I remember well the circumstances leading up to the event. Mr. Gibson, who afterwards died in Demerara, and I were preparing to write for our M.A. degree in Toronto and living in Knox College. A telegram was received by me from Dr. Robertson, shortly before appointed Superintendent of Missions for the West, 'To leave at once for Gladstone, Man.' that the field was without a missionary. I obeyed the mandate and as soon as possible my face was turned to the wide field of the west - arriving in Wpg., as I said, about the 10th of June.

1881. The first Sunday in the city I preached in Kildonan. Dr. Black was in Kingston at the Assembly, but I was entertained in the manse and remember well Mrs. Black and a young son who was home. I formed also the acquaintance of John Sutherland, whose friendship was enjoyed during my stay in the west. The following week I was sent to visit the construction camps along the line of the C.P.R. as far as Rat Portage and conducted service there on the Sabbath. Called on all the Presbyterian families of the place so far as known and preached in the hotel, Rat Portage, in the morning and Keewatin in the afternoon. Had my first experience paddling a bark canoe for that was the only means of transportation between the two points, and the experience was a somewhat precarious one after night-fall.

"The following week I came back to Winnipeg and went to Portage la Prairie and Gladstone, going by stage with Frank May to the latter place, over terrible roads and through large swarms of mosquitoes, for that was the wet season. Preached in Gladstone the first Sabbath of July, 1881, and remained there until the end of June 1892, eleven years exactly. Preached in Calumet the first Sabbath in July, 1892, and will end my 25th year there the end of June this year.

"Gladstone field, or as it was called Palestine, was then a wide one. From Westbourne and Woodside on the east to Arden on the west; from Beaver Creek on the south to the pole on the north".

((Written in 1917)).

BERTON: Thos. Carmichael is keeping as well as can be expected although unable to leave his bed.

Gillespie School Honor Roll: Grade 3, Henry Schneider; Gr. 4, Winnie Robinson; Gr. 3, Forest Smith; Gr. 1, Frank Currie.

THURS., MAY 24th, 1906 —

Births: At Gladstone, May 16, wife of John H. Wilson, a son; May 17th, wife of Wm. Hymen ((Heiman?)), a son; May 19th, wife of P. W. Waher, a daughter; May 23rd, wife of W. Smith, a daughter; At Lakeland, May 18th, wife of C. N. Smith, a son.

The funeral of John Glenn took place from his residence on Sat., May 12th. Rev. W. S. A. Crux took charge of the service. Deceased was a native of Ireland, having been born in Donegal Co. 69 years ago. He came, when quite a young man, to Ontario; from thence he came west 22 years ago. He had two half-brothers and a full brother and sister; that latter lives in Ontario. The body was buried in the Gladstone cemetery.

Mr. Trist shows a sample of radish grown in his garden, which proves the capabilities of our country for early garden varieties. They were fully 3" long. Can anyone beat this?

For Sale or Rent: North half of Sec. 31-14-10, six miles east of Gladstone. — P. F. Gallagher, South Kaukana, Wis.

Quite a number of spectators turned out on Tues. evening to witness the ball match between "The Moose" and the "Roughriders". The latter, which is the new junior team, have been at practice almost every night and give a good exhibition of ball. "The Moose" are composed of a bunch of boys whose school days are a thing of the past, and as they have not had much practice this season, they were badly beaten; in fact the score was uncountable. Reg. Jacob was in the pitcher's box and put in a few pretty curves, yet we must admit there were others like the wideness of the sea. It was this difficulty to a certain extent, no doubt, that prevented Jack McAskill, behind the bat, from not being able to get hold of the ball. Then again, Mr. Jessop on first base had to bound around like a jack rabbit in order to catch a few and get some men out. Out in the field Geo. Fairbairn, with the balance of the team, was very busy trying to corner the ball.

Mortgage sale of SW 33-12-12 will be held Sat., June 12 at the 'travellers Hotel'; John Jacob, auctioneer.

Geo. Barr elected by acclamation to fill vacancy caused by the resignation of A. W. White on the town council.

((The town is at long last permitted to issue debentures and has borrowed \$20,000. This is to be used for fire protection, a new town bridge, and a public hall and lock-up)).

((The foot-bridge that was to have been built in 1905 on east Dennis very evidently did not materialize, for once again the Council is calling for tenders on the same)).

Oak Villa, the residence of Mr. and Mrs. R. Galloway, at Gladstone, was the scene of a very pretty wedding on Tuesday when Miss Nina, eldest daughter of Mr. and Mrs. Galloway, was united in marriage to Mr. Frederick T. Cadham, M.D., of Wpg.

The town was shocked this afternoon when the word was given out that our respected townsman, Robert Kinney, had succumbed to a long illness and deep-seated trouble, at the age of 60. He came to Gladstone from Tilsonburgh, Ont. 9 yrs. ago and has since been in the lumber business here, and also very active in community affairs: on

the Council, Board of Trade, director of the Skating Rink, and the Sport Assoc. etc. His faith in the town was shown last year in the erection of the Kinney Bldg. which will stand as a monument to his memory.

PLUMAS: K. Hamilton, of the firm of Hamilton Bros., Neepawa, cattlebuyer was found dead about 4 miles from Tenby from what appears to be natural causes.

((The magnificent new C.P.R. hotel in Wpg., the "Alexandra", is scheduled to open during the next month)).

THURS., MAY 31st, 1906 —

We learn there are some farmers in the vicinity of Gladstone who are working on Sunday. We would gently intimate that all that is necessary to prevent this action is to notify the Association known as the Lord's Day Alliance.

C. W. Haslam left for his home in England on Wed. He will be greatly missed by his friends here. Mr. Haslam has generously undertaken the task of taking Mr. Jas. Munro home to Scotland. Mr. Munro, it will be remembered, was stricken with paralysis while threshing last fall whereby he lost the use of both of his legs. The local organization of "the Moose" took charge of him and have since been looking after his welfare. He has been treated in Winnipeg General Hospital for several months but as he has shown no signs of improvement, and as no hopes were held out by the medical advisers for his immediate recovery, it was thought best to send him on the journey, and by the generosity of a number of the citizens in contributing funds "the Moose" are able to accomplish this. And thus ends a very creditable chapter in the lives of a number of the young men of the town.

((The Victoria Day sports did not turn out as well as expected due to chill winds that dampened much of the ardor, and Editor Minaker opines that the "24th" is just a little early in this part of the country for such outdoor activity. However, the newly-formed junior Roughriders proved the best of the six teams that met their challenge (and won the \$10 they put up); and the Gladstone Srs. won over Plumass)).

((The Board of Trade is all agog over the possibility of the "Dow Cereal Co." putting up a processing plant in Gladstone. The Co. is coming soon to make an on-the-spot inspection)).

((Some 200 spectators accompanied the football team to Minnedosa Tues. afternoon only to see their heroes lose 3-1. The excursion train left town at 4:30,

KEYES: Hugh Barnum loaded his car of effects for Tisdale on Monday. — Messrs. Will Lobban and John Grey left Tues. for Lloydminster to take up their homesteads. — Keyes Tennis Club was re-organized Mon. evening: Pres., J. C. Gordon; V. Pres., Mrs. (Rev.) H. O. N. Belford; Sec.-Treas., Alex. Artfur.

A very serious freight wreck occurred on Sunday last on the C.P.R. just west of Arden - just 6 to 8 m. from the recent passenger derailment.

GILLESPIE & PINE CREEK:

A sad event occurred at the home of Mr. and Mrs. Ephraim Stewart Friday, the 18th. Their only daughter Eva, a bright little girl of some four summers, while playing, accidentally swallowed some hard substance which lodged in the cavities of her throat, and although her parents were on hand and made every effort to have it expelled, the child succumbed in a very few minutes. The sympathy of the community was shown by the large number who attended the funeral service and followed the little casket to the Gladstone cemetery.

THURS., JUNE 7th, 1906 —

The game between Minnedosa and Gladstone football teams was witnessed by 400 or 500 people. The special arrived with the Minnedosa citizens who soon wended their way towards the grounds. Play was called 45 minutes late which made the end of the game extend into the dusk. The visitors won 2-0.

On Sunday last there was a Memorial Service held in the Methodist church over the remains of the late Walter C. Johnston, which were brought from Washingtonville, N.Y. The Rev. J. E. Munro had charge of the service which took place at three o'clock. The church was filled with friends of Mrs. Johnston and family, who desired to show their respect for the bereaved. The service had been arranged

as the friends desired, Mr. Munro being requested to officiate, he being the only minister in Gladstone who knew the early life of the departed. — During the service Miss Alyson Minaker sang two solos, "The Homeland" and "Abide With Me". Mr. S. Schooley, assistant superintendent, spoke of the character of the departed in a few most appropriate terms. The funeral cortege proceeded to the cemetery conveyed by the following pallbearers: W. Morton, W. Blackwell, W. Willis, W. McAlpine, Reg. Jacob and D. Hembroff young men who were members of the Boys' Brigade with the deceased.

((Town Coun. is putting in some sidewalks: there's an extension of 100 ft. on south Morris at the D. A. OIL EXCITEMENT
OIL FOUND IN WELL IN
MAGNUS WILSON'S BRICK
YARD. — MR. STAUFFER
OIL EXPERT, GIVES
HIS OPINION

NEEPAWA 'AND GLADSTONE
MIGHT AMALGAMATE

Latest Developments - A
Pocket Has Been Struck

Gladstone has every indication of crude oil. On Saturday last about noon, while Mr. John Stauffer was operating at Magnus Wilson's brick yard, sinking a well with a steam boring machine drill, having reached a depth of 100 feet, traces of heavy dark fluid were found in the buckets, which when emptied, left a trail for some distance. As operations continued there were all the indications that a find which just might prove most profitable to the owner as well as the locality generally, had been made. Mr. Stauffer claims to be an expert on oil, having been at the Petrolia and Pennsylvania fields, and his opinion is that indications warrant further investigations. This gentleman has formed the Neepawa Oil Fields Development Co. and is soliciting for stock in this locality that these two concerns might amalgamate.

The citizens of Gladstone are awaiting developments and are hoping the indications warrant further energy. Salt manufacturing will be the next item of news as Salt wells are being found.

THURS., JUNE 14th, 1906 —

Miss Madeline Fahrni passed the final examinations at Minneapolis City Hospital most cred-

itably, taking 95 percent standing.

Dr. F. T. Cadham returned to the city yesterday morning, accompanied by his bride, after spending a very happy 3 weeks at his shooting box on honey-moon island, Shoal Lake.—Free Press.

The indications of oil at the well being dug on the premises of Magnus Wilson at the brick yard, are as good as ever.

Owing to Miss Campbell's illness, Miss McQueen is taking charge of her room on the teaching staff of the school.

On account of the hot weather we prefer the butter printed in tubs. We pay 14c for prints; tubs 14c, returning tub. Eggs, 18c. — Galloway Bros.

Medicine ball is the new game at the public school, introduced by Principal Brown. Lots of fun!

PRESTON: We expect to hear that many of the farmers in this district are busy sinking wells, since indications of oil have been found in Gladstone.

KEYES: Messrs. Ferguson Bros. shipped a car of wheat on Wednesday. — Mr. Robt. Lodge and his bride stepped off the train on Friday, having been married at the bride's home in Gladstone on the previous Wed. — Masons are repairing the damage done to Keyes school by lightning. — Mr. Wm. Lodge has a large gang of carpenters at work on his new house.

WESTBOURNE: The grain elevator put up by the Andrew Gage Co. is being torn down and will be removed to another town. It will cause quite a vacancy in our midst.

THAT PAMPHLET MATTER: At a meeting of the Board of Trade Mr. Davis, of Messrs. Davis & Singleton, introduced the matter of advertising the Town of Gladstone and district, and suggested that 100,000 pamphlets be printed and distributed. The idea was favored by the Board and doubtless, had the idea first broached been held to, ere now the pamphlets would have been in circulation and the "Age" would have received the printing of same. The committee reported to the Board of Trade and they favored a book the same as one gotten out by the Town of Souris and the city of Brandon, which is a book of views of public buildings, private residences and farm scenes. The board fell in with the idea and the matter of how to proceed was talked over. Mr. Lavelle of the Canadian Engraving & Publishing Co. met the board, also spent a couple of days taking views of the town, leaving instructions to forward the matter for its completion. It is to be

hoped that some will be ready for July 20th, Fair Day, as intended. From the standpoint of the "Age" jobbing dept., we would like to have secured the pamphlet first suggested, but as secretary of the Board of Trade, when the board considered the book the better medium of advertising, we have no other intention than pushing it to a successful issue. We hope we have placed the "Age" and the Board of Trade in their proper light in regard to this matter, which is causing a good deal of comment throughout the county.

THURS., JUNE 21st, 1906 —

Birth: At Gladstone, June 14, the wife of J. J. Downey, a son.

DIED: At Keyes, June 17th, Ethel Margaret, youngest dau. of Mr. and Mrs. Chas. Knox.

Carpenter McMillan's family left for the camps for the summer.

A little dau. of Mr. Tookey's fell in a well on Mon. last and narrowly escaped being drowned. Mr. Phillips, who was passing, observed the occurrence and rescued the child. Had the child not caught onto a board and held on until rescued we might have had to report a sad drowning.

Mr. and Mrs. W. H. Madill have moved to Russell where they will permanently locate.

Robt. Jacob will take charge of the law office of Mr. Thos. Morton during his absence in England.

The real estate firm of Singleton & Davis report the following transfer of lands made by them during the past week: the NE quarter of 34-13-11, owned by Thos. Knox to Mr. Cox, of Dakota; the SW quarter of 12-14-11 owned by J. D. Armstrong to Mr. Cox; the SE quarter 12-14-11 owned by J. D. McQueen to Mr. Cox; the NW quarter of 14-14-11 owned by W. W. Grantham, to Mr. J. T. Blackford.

(Mayor Roper Galloway (who quite evidently did not resign at the end of the year as he intended) has a letter in the paper explaining a large indebtedness the town plans to assume):

"On the 10th of July, those of you who are then Freehold Owners of property to the value of \$400.00 and are so rated on the last assessment roll, will be called upon to approve or condemn the proposal of your council for issuing twenty thousand dollars of 20 years debenture at 5 p.c.

"It becomes my duty to briefly state the purposes for which the money is required:

1—Steel bridge on Morris Ave., \$2,000.00.

2—Fire Appliances (engine & hoses), \$4,500.00.

3—Fire Appliances, water tanks, \$2,000.00.

4—Fire Hall & Municipal building, \$8,000.00.

5—Balance for street improvements, \$3,500.00.

WESTBOURNE: Three serious accidents on the plains this past week: Angus C. Stewart received a very severe gash on the foot with an axe; W. Creery's "Pie Eaters" have challenged a picked team from all other boarding houses for a game of baseball on Dom. Day.

Dr. O. McDiarmid is holidaying at his home on the farm.

Robt. Jacob, one of our young townsmen, has passed all his examinations and has been called to the bar. We expect to chronicle further interesting news regarding Mr. Jacob soon. "Bob" will act as solicitor for the O. H. Kerr Mercantile Agency.

More people go to the post office than to any other office in the town, yet the miserable excuse of a crossing approaching it is a fraud. Private parties had to provide this stretch. We don't know how any council can square itself on such a deal. (Hard-hitting editor! Readers will understand Mr. Minaker's concern when they realize that the Age just recently moved into the building now owned by L. Cox, while the post office then was in the present Fabric Shop across the street. There was lots of mud those days)).

(Briefs: Percy Bond is married at Calgary. — P. St. Clair McGregor (our Wilf's dad) has come up with a unique tax roll that has gained the attention even of the Minister of Agriculture in Ottawa. — Four June Weddings: Lillian, dau. of Alex Munro, Westbourne, to R. Haddon, of Hartney; Jessie, dau. of C. McDiarmid to John Walsh, both of Preston; Josephine, dau. of J. T. THURS., JULY 5th, 1906 —

E. J. Cresswell was awarded the contract of remodelling the school, the work to be finished by Aug. 15th. Tender of \$1458 includes work and material.

A REVISED VERSION:

Mary had a little lamb,
And when she saw it sicken,
She shipped it off to Packintown
And now it's labelled chicken.

Pshaw! That's Nothin' . . .
Mary 'ad a little Lamb:
'Er father paid hit for 'er;
Now it bleats in Plumas town,
A bloomin' Hedit-error.

((The above: maybe this is a bit of friendly kidding between the two editors, but our guess is it's a contribution from P. St. Clair McGregor, whose opinion of Mr. Lamb was not very high, several exchanges being quite sharp; Mr. McGregor's skill with the pen, quite pointed)).

FIRE! FIRE! Livery stables of Bjorn Anderson burned. — Man probably in Ruins. — Eight Horses suffocated. — C.N.R. station saved after heroic fight. — At 4:30 a.m. Wed. Mrs. A. B. Clark gave the alarm. Jules Adams and Mr. Clark were the first on the scene but were too late already to save the animals. The station was saved by the heroic fight of a number of our young townsmen, special mention going to J. L. Clark, Geo. Eacrett, S. McDiarmid, C. Dunning, W. McAlpine, J. Adams, J. Reid and A. Porter. ((The location of the stables would be about midway between the station (still there) and the present Municipal buildings)).

Dom. Day was right royally and loyally celebrated ((July, 2nd)). The boom, boom as early as 4:30 aroused the citizens to the extra tasks of preparation, as the delightful morning meant an unusually large crowd would be on hand. (Such is how Editor Minaker started out to describe one of the better sports days, if not the best of all. It was done up in pretty fair style, too, if we can envision the band leading the Calithumpian parade in procession from the rink to Morris Ave. (he calls it Portage), north over the bridge to 4th st., then west through the park to "Fahr-

ni's" bridge; back east on Sask. Ave. to Morris, across the rly. tracks to Dennis; west to Cameron; south to Brussels, and then east again to Morris Ave. Lots of floats; Williams Bros. had two, one a complete kitchen, infant's cot and everything, even to a live baby attended to by its "mother" Miss Atkinson; Jas. Tracy Martin showed how sausage was made with regrets that he was unable to catch all the dogs and cats he wanted; Lee Laundry, Tom Lee being the "Chinee" with a "Cross" assistant. Principal Brown heralded the duties of citizens on voting for the by-law and fire protection; Robt. Brown of Gladstone Drug Co. had a floatbat featured Dom. Day with flours, flags, etc. all transported by a shetland. But the Editor says, "Galloway Bros. float was the gayest of all" featuring the various depts. of the big store, and dispensing throughout the parade and all through the day samples of Blue Ribbon goods "city methods right at home". — Horse Races had lots of entries, five for the "free-for-all" pace. — The baseball was "good for Gladstone" they beat Plumas in both Sr. and Jr., while Plumas won 13-1 over Westbourne in a league game. — But it was the water carnival that Editor Minaker was most ecstatic about. Following is his description of it in detail: "At the Water Carnival Mr. John Gerow won the trophy. The seven canoes strung along the river made a pretty sight, and hundreds of spectators lined the banks, each seeking what he or her thought the vantage ground to witness the pretty effect of such a scene. Commodore Hack commanded the fleet which comprised the following: Jack Fajla, Morton, R. Jacob, J. Gerow, E. Jacob, Fairbairn and R. Miller. The judges of this event were Messrs. Singleton, Barr and Squair. Two hours of illumination and display, which made the moon in her glory, look sick, gave to the crowd the greatest day's sport for the least money they ever had. Gladstone can exert herself when she will. This was shown by the great success on the "2nd").

THURS., JULY 12th, 1906 —

Gladstone's population is about 830.

((The money by-law carries 61 to 31, which on a 60 p.c. requirement gave a majority of 6. And Editor Minaker was not a bit happy with the turn-out to such an important vote. But he leaves the problem with the elected officials)).

((M. E. Boughton, Sec.-Treas. of the R. M. of Lansdowne, at Arden, is calling for tenders on construction of two steel bridges over the White Mud, replacing bridges on S. 16-14-13 and S. 29-

14-13, to be finished Jan. 1, 07)).

Mr. Harry Boyd has accepted a position on the Virden Advance and his many friends here wish him well.

\$94.00 has been subscribed towards aiding Mr. E. Hannason to get on his feet again after losing all his horses, harness, etc., in the fire.

Mr. W. Wood and Mr. D. Menzie, two young men from Stratford, Ont., have purchased the Livery Barns and Feed Stables of Messrs. Weaver & Adams, taking possession on July 1st and will carry on the business under the name of Wood & Menzie. ((If you have one of those valuable picture booklets put out by the Board of Trade in 1906 you will see the name "Weaver & Adams" not quite obliterated by paint and the names of the new owners not yet added)).

Mr. W. S. Bailey has returned from a sight-seeing tour, having visited all the large cities in the U. S. and Canada.

((The Town Council is still asking for tenders on building that

foot-bridge on east Dennis. Quite evidently it wasn't built in 1905 as was reported in "Chapter '05 of the "Glory Years"')).

((It looks like Plumas will win the handsome Williams Trophy in league baseball. They have won 4 games and lost only one; Gladstone and Golden S. are 3 and 2, while Westbourne has lost all five. The final games are Plumas vs. Westbourne and G.S. vs. Gladstone, with little hope of Westbourne performing a modern day miracle)).

THURS., JULY 26th, 1906 —

The second annual Summer Fair was held at Gladstone on Friday. In nearly every particular the show was better than last year's, showing the directors are gradually getting away from the set ways that might be applied to the antediluvian period.

((("A Citizen" who states he has lived here for 6 yrs. and has had 10 yrs. experience in the building trade, is very apprehensive of the repair work being done by Mr. Cresswell at the school. He says the \$1400 spent won't improve the heating of the building by 5 p.c.)).

((Another letter on "Education vs. Dollars" is written by "Essex" and is a good one. He puts the lack of education in rural schools on the shoulders of farmers, not the teachers. "It is a disgrace the way country farmers send their children to school". "Of 14 children on my register, and 4 or 5 other children of school age in the district, for the last week I have had a daily average attendance of two. The boys stay at home to do the chores and the small girls to pick berries. This goes on and then at end of the term when his kids don't do well some old "hobs of a country bumpkin, who can hardly write his name comes along and says, "you can't teach, you are no good"')).

PLUMAS: Mr. W. Whitman held a sale on Thursday last, & has left for Nova Scotia to live on the old estate which has been in the Whitman name 200 yrs.

While we welcome Mr. and Mrs. O. Mills, from McCreary, we very much regret Mr. Tebo and family's removal. A more painstaking and conscientious official would be hard to find. Gladstone has been well favored in both C.P.R. and C.N.R. agents in the past.

The Methodist church decided, at a meeting of the board, to forbid the use of the church sheds throughout the week by farmers who have taken possession of the same. The Health Officers of the town demanded the place be cleaned up. Did the parties who used the shed contribute the \$7.00 it cost? Well, no! Sorry, but this is your notice. If all who used the sheds attended church, the building would have to be enlarged.

((All is not love and goodfellowship in this Eden of ours, as is to be seen in a quarter page advt. of Mr. E. Crouter, hdwe., in which he rather kindly but firmly denounces those, including a "Medical gentleman, who however expert he may be in detaching an arm or a leg, is certainly no authority on binder twine". Scemingly the doctor had loaned his influence to help his friends in running down the value of the "English Binder Twine" that Mr. Croutef had secured the contract for (see early in the year), but success did not reward their efforts. Mr. Croutef states, "The efforts put forth by them has been the means — however unintentional on their part — of causing a larger sale than was at first anticipated, thereby advertising the twine more extensively, and for which I extend to them my hearty thanks").

THURS., AUG. 23rd, 1906 —

((The vote on the \$20,000 debenture issue apparently is to stand. There was a protest that some women had voted, contrary to the rules and regulations of the day, but the ladies who were supposed to have voted "for" the by-law, had not voted at all)).

((There has been a protest entered claiming that all school teachers selected are Presbyterians)).

THURS., AUG. 30th, 1906 —

Threshing started on Tuesday.

Miss Rintoul returned from Ont. where she spent the holidays, to resume her work at the school which opened Tuesday.

Last Monday Mrs. (Rev.) J. E. Munro and the boys were spending the day at the farm of Mr. Jno. Findlay near town. Along during the afternoon while Edward, the eldest son, was assisting on a load of hay, the horses starting suddenly, overbalanced him and he fell off the back end of the wagon. The handle of the fork he was using struck the ground and as it fell outward the tye caught the falling lad penetrating near the groin and came out four inches further up. Dr. Armstrong was hastily summoned; dressed the wound and made the young sufferer as comfortable as possible. Edward was more concerned about his mother than himself and stood the ordeal bravely. ((The following letter from School Inspector T. M. McGuire is of interest for two reasons: it refutes Editor Minaker's recent and rather glowing editorial on the school (evidently in support of Mr. Cresswell's letter), and also because he had complained that the Inspector was lax in his duties as regards visits to the school)).

Following is the report as presented by the Inspector on May last:

"School is in bad condition; but I understand that the trustees have this matter under consideration.

"I always supposed that the whole of the part of block upon which the school stands belonged to the school, that is from the church property out to the west street. I find that two of the other lots are owned by other parties. These ought to be acquired as soon as possible for the property now including them is small enough.

"The work of the school is in a fairly satisfactory state, but the effects of the dingy surroundings on both pupils and teachers is not good. With wider halls and lighter rooms, and more comfort the work would be much better. There appears to me to be quite an improvement in the spirit of the pupils in the intermediate room. They seem to take more interest in their work.

"Miss Campbell is doing most excellent work.

"Miss Collins has too many pupils to get the best results.

"Miss Mustard is also doing good work.

"Miss Rintoul's work needs no comment from me.

"Many things could be improved in the Gladstone Schools, but the most crying need is to put the building itself into better shape, and the next is the acquirement of these two lots, so that the children shall have room enough to play; children who cannot engage in healthy games always get into mischief."

GLADSTONE'S PAMPHLET . . .

((Readers: The word "pamphlet" is hardly correct, as the following article refers to the much-valued (today) picture album of the town published in '06. There are quite a number still treasured in many homes)).

The Board of Trade have at last received the first shipment of the Pamphlets which have been underway for weeks, yes, months. There have been a combination of circumstances which have caused delay beyond all reason, so that a substantial reduction on the price was made by the Engraving Co. — The workmanship on the book is creditable, indeed something that we, as a town, need not be ashamed of. The local photographer took so much time in developing, that his work is very creditable. No risk from hurried work is laid to his charge. — Now comes the work of judicious distribution; by that we mean the placing where the best results will be derived. This is what is confronting the Board of Trade and citizens generally, because all are interested. So much did the Town Council approve of the scheme that they subscribed \$250.00 toward the project. — The ideas regarding sale of these pamphlets is many. — To limiting their usefulness, however, revenue must come from some source, and it is thought best to place the books on sale at the stores for 50c each. Whatever rule is laid down the Board wants to stay with it because favoritism in such a matter will create a loss of faith by the public. — Those who took space are entitled to a certain number of copies. If any citizen can suggest a good, workable plan we are open to receive it. Some distributing agents throw the bundle in a corner, particularly if they are not in the locality.

TWO COUNCILLORS GO TO WINNIPEG

COMMENTARY

(by A.E.M.)

Well, at least two of the events recorded in Chap. '05 didn't take place: Mayor Roper Galloway did not quit as he said he would, and the Council DID NOT build that footbridge on East Dennis; Council was still trying to get a contractor interested well on into 1906.

The help given by readers is very much appreciated, especially when it comes to submitting old and rare pictures. Our neglect to thank Mrs. K. I. Johnson for the Cory picture that graced the front page of Chapter '05, was an oversight. An interested old timer from far away Vancouver wrote to compliment us on such a good choice.

Now on to Chapter '06 . . .

As was to be expected, Gladstonians jumped at the chance of using their brand new "Opera House" and from then on thro' most of the year there was rarely a week that went by without a local concert, play, or dance & sometimes as many as three. The word spread and troupes from Wpg. and elsewhere were making bookings. Just how the town populace found money to attend all these in sufficient numbers is cause for some wonderment. John Jacob, that very imposing gentleman (325 lbs.) was evidently appointed to sort of guide affairs and make some of the more important bookings, for his name appears frequently in this regard. So important was the building in the social life of the town that the fire that threat-

Commentary . . .

ened the building was cause for public consternation, & had Editor Minaker appealing to some Councillor, with enough gump-tion, to make a firm stand for better fire protection. And perhaps this may have been the "mover" in getting the Council to raise \$20,000, a debenture issue that received voters' support.

While building on any grand style seems to be a thing of the past, the town was not dead. There was lots of excitement during the year; like three train wrecks, two west of Keyes and one at Westbourne; lots of run-aways (four in two weeks), and several of these provided more injuries than the average car accident of today. How would some young matron of today like to have to make a dash for safety from a pair of charging steeds and a wildly careening buggy or wagon? Or, like in the case of Crief Ferguson's mother, make a desperate jump from her own buggy and fracture both ankles? Yes, those were lively (& sometimes) deadly days. One young man was killed in the first train wreck; also Mrs. Dotten & Rev. Crux were quite badly hurt in the same mishap, as was Mr. Chris. Fahrni (dislocated shoulder) and his daughter too.

Business-wise, Galloway Bros. continues to hog the headlines. Huge contracts come their way for supplying beef for the railways as they build west. This is the year that the big-feeding sheds were built at the ranch (on the river 1 mile north and 1½ miles east of town). They were there until recent times, and us kids in the early 20's used to walk out that way frequently during the holidays, not so much because of the ranch buildings but because of the huge dredge that lay rotting close by. — There's the sudden death of Ed. Crouter, hardware man, and that of Robt. Kinney, the man to whom the Opera House remained a monument. — An historical "fact" is provided in Feb. when Galloway Bros. announces their 25th anniversary. — "The Age" too, moves in 1906. After 4 years next (north) of the big Alhambra Hotel on Morris, Mr. Minaker takes over vacant quarters in what is now Lyle Cox's establishment on Dennis. — There are big things taking place on the Morris-Dennis corner as the Merchants Bank buys out the former Knox Bldg (now the bakery) and leaves the Bailey Block for their new highly enhanced new quarters (described in full by Editor Minaker) complete with a thick, round, supportive stone column for the corner.

There are quite a few fire scares besides that of the Opera House, but the worst of all was that of Bjorn Anderson's Livery Stables when a number of hors-

Commentary . . .

es were burned to death. This building was located south and west of the C.N.R. station, a building that was threatened by the flames. A few months later this stable was replaced by a steel structure, when F. S. Smith (later a town constable) made his advent to Gladstone.

Up Plumas way, after several abortive attempts, the village gets a permanent newspaper when the 'Standard' was brought forth by the efforts of that able but somewhat cantankerous W. D. Lamb.

This is the year that the Board of Trade had published that album of pictures which are so prized now, for views of the town as were then so well portrayed. Quite evidently it came forth in much labor and pain, though Editor Minaker gave staunchly of his support, even though he himself, as the local printer, was bypassed. It is doubtful if any of the copies circulated much beyond the local area, for the price, even as a Xmas present, drops to 25c. It must have been a disappointment to those who wished to advertise the town far and wide. Well, they are valuable today! If there's one for sale let's know; somebody "borrowed" ours.

It was a nice gesture of Roper Galloway and a few businessmen when they got together to pay a parting tribute to Mr. Sebastian, retiring mail carrier (to & from the station and post office) before his departure from town. The Sebastian family was mentioned in our 'Comments' before, a much-respected old couple and their family of seven daughters who resided first on the present Orville Lackey farm, 3 miles west and 1 mile south, in the very early days; later moving to town! Mr. and Mrs. Ralph Fehr built their new house on the land formed by the loop of the river on the east end of Dennis St.

The "Band Benefit Carnival" is printed almost in its entirety to illustrate the spirit which prevailed, and shown in the public support of the very popular band. Editor Minaker thought it was a super effort and went to a lot of time and effort recording it for history. For remember, the type in those days was all hand-set . . . hours and hours of tedious effort.

Mr. Minaker couldn't be a member of "The Moose" (open only to young bachelors) but he applauded their deeds and gave good space to their efforts on behalf of a most unfortunate young man, who ill and attended by the group all winter, finally had to be sent home to England. As stated before, these young bucks must have been a commendable bunch of young men, a credit to

Commentary . . .

the town in those so-called "good old days".

The same group must have had lots of good fun too. They were represented in the Wpg. 'Spiel and almost won the Empire Cup, but second was good enough for "The Moose" to bring the band out to the station to meet them.

Curling, generally is back on track after a rather disappointing year in 1905, the McAskills, etc., again winning big events up and down the line.

The reference in late April to "The Bug" and its editors is of some interest. We have a copy of this publication (which was published sporadically in the '80s in opposition to the Moodie Bros. editors of "The Age"). Jack McLaren and Peter St. Clair McGregor (Wilf's dad) were its principal writers, we believe, & their venom toward the Liberal-minded Moodies was expressed mainly in ribald verse. Our copy is dated 1886. This is the year, we think, that the Hon. C. P. Brown was finally unseated by T. L. Morton, who held the seat for the next 16 yrs. So "The Bug" must have finally lost its effectiveness. When Ye Olde Editor took over the "Age" in 1938 Mr. McLaren quite often frequented the office to spin a yarn or two. He told us about "The Bug" but we thought he was "pulling our leg", but years after his death a copy showed up.

The "OIL EXCITEMENT" in June didn't develop into a gusher and the man with most to gain from an oil strike was the least impressed of all. Mr. Magnus Wilson heard about it while at lunch, and later went down to have a look. "Looks like crank-case oil to me" and went back to his work without more comment. He wasn't fooled by the prank even if many were. The brick yard then was south of town, close to the Clayton buildings.

Williams Bros. were fast taking over in the furniture business. In 1905 they had acquired Knox Bros. business when that firm got into difficulties, and in July 1906, it was B. B. Williscroft & Sons effects they acquired. This place of business was on Dennis (where Lyle's Laundromat and Kennedy's Coffee Shop are now located). Later the building was taken over by Reg. Jacob as a barber shop, etc. Still later in the teens it became the Rex Theatre & as such was consumed by flames in the very early 20's taking with it Jessop's Photo Studio (bank property now).

T. E. Nichols & Co. was dissolved and the office (in the west side of Broadfoot Bros. store) was utilized for Men's Furnishings. In the late 30's when Dave Oliver opened his Revilo Theatre

Commentary . . .

this section of the store housed the operation. Mr. Nichols later in the year left for Wpg. His "monument" still stands in the sturdy structure, on Cameron St. for many, many years the home of Dr. Rose and family, and for an equal number of years, that of Mr. and Mrs. Fred Fahner.

The Livery Barn that Messrs. Wood & Menzies bought from Weaver & Adams was a landmark for years, close by the bridge extending east a half blk. or more. When it was built we haven't found out but it faded with the horse and buggy days, and finally was consumed by flames in 1922 or '23. It produced quite a spectacle!

Our speculation in Chapter '05 as to what prompted Mr. H. J. Newman's departure for England isn't completely explained by the item in Aug. 9th issue in which he and his bride, come from Kingston, Ont., to visit here before taking over the Virden (Man.) Advance. Back into the newspaper business!

See Oct. 4th issue and add high winds and prairie fires to the trials and tribulations of that day.

It's nice to have the date of the arrival of the John Thompson family, as Flora May, one of the daughters was teacher here for some 36 yrs. and in that time put a certain "impression" on almost every kid in town; a deeper impression on some than others; for it was in the early '20's that Miss Thompson's noted abilities as a disciplinarian came to the fore. Grs. 4 & 5, that occupied the east section of what is known as the press bldg., became a problem centre; a gang of young "toughies" like the late Bill Lawton and Ron Broadfoot, Bill Strachan and Art McLaren, etc., took over (nope, Ye Olde Editor wasn't among them; we were out beyond in Gr. 6). Anyway, things were in a desperate state, so the powers-that-be of that day put out the word "Get Miss Thompson". The next term she was moved over from Gr. 2 & 3 in the old Orange Hall, and put in charge. Her Sgt.-Major demeanor and straight-laced attitude transformed the room almost overnight. But everybody loved her for it. Her stern look could scarcely hide the twinkle in her eye as she jollied the young toughs into obedience and respect. Go where one will in the world of today and if you meet a Gladstonian of that era the chances are when talk turns to school days, the first question will be, "Did you have Flora May?" And the chances are the reply will be a proud, if somewhat rueful, "Had her? I had in her in Gr. 3, Gr. 4, Gr. 5, 6, 7 & 8!" (And don't think for a moment that our reference to youthful chums as "toughies" will be con-

Commentary . . .

sidered libelous. First, they'd have to prove it wasn't true).

It's also nice to have a date for the old town bridge (still sitting forlornly out in a field 1-mile north of town). And the cost too. Wonder how this figure compares to that of the govt.-built structure we now enjoy? The old cement abutments carried the figures "1908" and so we had always assumed that this was the date of construction. You've got to go to the "old Ages" to get the facts.

By his letter, T. M. McGuire, School Inspector, certainly was not happy with conditions at the big 3-storey school. Wonder if young students of that day remember it being a cold, dark & dingy place? Well, Editor Minaker asked for an inspection; and he got it. However, the School Bd. was at that time trying to rectify the "coldness" of the place, even if a "Citizen" didn't agree that E. J. Cresswell knew how to do it. "E.J." replied at length, and was upheld by the editor. But it was a hot place for sure on a certain evening in October, 1918.

That the town may have had high ratings as a bus. centre, is

Commentary . . .

to be seen by the visit from the General-Mgr. of the Merchants Bank; or was he here to inspect the new quarters. He was wined and dined anyway!

The departure of J. K. Hall, former editor and lately an up-and-coming real estate man, for Edmonton was a surprise, although a realistic move, seeing how the railway was turning the prairie into a metropolis.

The farm in those days was evidently no place for a minister's son to holiday. Witness the painful accident that befell Edward Munro. Bob Wilson had no trouble giving us the details on this mishap, and was busy doing so before we had finished. "Do you remember the mishap at the Findlay farm . . . ?"

Today (Dec. 4, '81) we hear, via the grapevine, that the C.N.R. station (still in use but soon to be retired) has been acquired as a museum & will be moved (if possible) across the new town bridge to our beautiful and expansive Sports & Fair Grounds alongside the even more beautiful park. A notable acquisition! And a museum piece itself, a link with the town at the turn of the century when Gladstone's "Glory Years"

Commentary . . .

were just in the making. As a storehouse for "old pictures" it will be indispensable, and Gladstone is more fortunate that other towns in this regard for it was settled sooner, and as a developing centre attracted travelling photographers.

Now, as to the pictures in this Chapter! Two are from the Museum collection: that of the Presbyterian Church choir of 1889-'90, and that of the performers in the Operetta "Princess Ju Ju" staged in the Opera House in 1916; (see "1916" for a report on this). Further along in this, "Commentary" we give some information re the choir picture. — The picture of some of the "boys" that left for overseas in June '16, was provided by Mrs. Ferne Schooley and we are pleased to publish it in connection with other news items concerning the First World War, while in "1946" are listed some of the returnees from the second. Two world wars in less than half a century! Not much wonder small towns stayed small! — The 2 school pictures appear and we are fortunate to be able to report that so far no angry matron in the 45 to 50 age bracket has yet attacked us. To the contrary, it seems. Berton

Commentary . . .

& Silver Stream here we come - thanks to the efforts of Rev. K. A. Moyer 37 years ago. — Mrs. Margaret Hubble (Rose) was good enough to look up the picture of her grandfather, which is featured on the front of the book. (See "Commentary" in Chapter '03 for some historical data re this postmaster who served from 1884 to '14). — Those pictures on page 2 are all from the Museum collection.

In regards to the picture of the Presbyterian Church choir of 90 some years ago (and with others like it) it is tempting to try to put exact dates, thereto; in some cases this can be done; usually not. But in this case, with Miss Rintoul in the picture we know it was in 1889 or later; and as Rev. Stalker left here in late June 1892, we can be sure the picture was not taken later. So it must be in that span of three years, mid-Summer '89 to mid-Summer '92. If it were possible to spot a wedding ring on the hand of Mr. Stalker's sister, then the date would be '92, and probably then the picture would be to commemorate the departure of the reverent gentleman. But that, of course, is just 'guessing'. By referring to the single copy

Commentary . . .

we have of the "Gladstone Times" dated Dec. 10th, 1891, (J. M. Glover, editor & Prop.), we have reference to the marriage of Mr. Broadfoot and Miss Stalker (but not the exact date). We quote: "We bow with dignity and in line with the citizens of Gladstone, and relatives of both contracting parties, to Mr. and Mrs. Broadfoot, whose marriage has sprung, but not unexpectedly. We stand with our grammar school neighbor, the Rev. Stalker, brother of the bride, throwing wheat at them, and in silent seriousness say to both, "May the pillow of peace kiss thy cheek and the gates of plenty and honor and happiness be open to you."

It doesn't do for Ye Olde Editor to go snooping thro' old papers, for he's soon led far afield from his original purpose. The following two news items from the same Dec. 10th., 1891 paper are examples. Quote, "The new Methodist church "Salem" (18-16-12) will be dedicated on Sun., Dec. 20th. Rev. Thomas Argue, district chairman, will conduct the services, and preach at 2 p.m. and 7 p.m. The Sacrament of the Lord's Supper will be administered at the close of

Commentary . . .

the afternoon service. On the Monday evening following, a tea and entertainment will be furnished. Admission, 25 cents. Tea will be served from 5:30 to 7. Entertainment to follow immediately. The young people are arranging a good programme. Revs. Argue, Murdin, Garton, Runions and Goard are expected to be present. Persons from a distance will be kindly cared for. All are cordially invited". — Editor Glover is able to give the names of those who will form the Town Council in 1892, as follows: "Mayor, T. L. Logie (this should be "J.L."); Councillors, J. W. Woolfe, Peter Proudfoot (Broadfoot?), Wm. McKelvie, C. Fahrni, A. G. Williams, & Thos. Madill".

And so may end our efforts to record "The Glory Years". Due to developments pretty well beyond our control it may become necessary to suspend publication until Spring or later. But it is our sincere hope that at least one more Chapter can be completed - before the March winds blow.

In any case may we wish all who have shown interest in the project the traditional "Merry X-mas & A Happy "Centennial"!
